

Books and Activities for different grade levels

Burkeleigh, Joel, and
Sixto

How Activities will be organized

Activities will be organized by grade level from Pre-K through 12th grade.

We will have a minimum of two activities per grade category and a maximum of five

We will put all the lower school activities in one folder, the middle schoolers in another, then the highschoolers are in the last

What Activities We Will Offer (PreK-5th)

Toothpick Puzzles

Gather some toothpicks and follow the pictures in the link below. Allow your kid to work on spatial skills and have safe fun at the same time.

Fraction Simplification

Help your kids learn fractions easily with a deck of cards and friends by following the link below.

<http://www.education.com/activity/article/simplest-form/>

What Activities We Will Offer (6-8th)

Algebra Tic Tac Toe

Bring the fun childhood game of tic tac toe and the tricky concept of Algebra together for family fun and easy learning.

<http://www.education.com/activity/article/tic-tac-equations/>

Geography Challenge

Fun for mom and dad to freshen their skills or just for your kid to learn and all you will need is a globe, map, or atlas.

What Activities We Will Offer (9-12th)

Proof that $1=2$?

Your high schoolers will have a struggle trying to figure out the flaw in the short proof that claims one is equal to two. Is your high schooler up for the challenge. Click the link below and find out.

How We Will Organize Book Suggestions

Similar to Activities, books will be organized by grade as well as reading levels.

Each grade category will have a minimum of two books and a maximum of five.

We will put all of the lower school in one folder, the middle school in the next, and the high schoolers in the last.

Book Suggestions for PreK-5th grades

The Book with No Pictures by B.J. Novak

It may sound boring, but everything in the book has to be read by the reader, including the weird sound effects that make up for the lack of pictures.

Wonder by Robert J. Palacio

Story where main character, Auggie, struggles to fit in in a mainstream public school.

Book Suggestions for 6-8th grades

Percy Jackson Series by Rick Riordan

Go with Percy and experience his life of adventures with Greek gods and monsters.

Harry Potter Series by J. K Rowling

Enter the world of wizardry and witchcraft with Harry Potter and his friends at Hogwarts.

Books Suggestions for 9-12th grades

Gone with the wind by Margaret Mitchell

Beautiful classic romance novel between Scarlett O'Hara and Rhett Butler that takes place during the civil war.

1984 by George Orwell

Dystopian novel full of propaganda and historical revisionism. Another one of George Orwell's classics.

A large number of colorful balloons in various colors (red, yellow, blue, purple, white, orange, green, pink, teal) are floating in a clear blue sky. The balloons are scattered throughout the frame, with some near the top and others closer to the bottom. At the bottom of the image, there is a dense line of green trees. The overall scene is bright and celebratory.

THE END
